

# TAMALPAIS UNION HIGH SCHOOL DISTRICT

## REQUEST FOR ALTERATION TO SCHOOL DISTRICT PROPERTY

**To:** David O'Conner  
**From:** Max Martin, Senior, Drake High School  
**Site:** Drake High School  
**Re:** Mural Request  
**Date:** 12/20/2019

**I am proposing the following alteration(s), decoration(s), and/or improvements(s) to the;**

I would like to paint a mural showing the beauty of Northern California's endangered species, on the east facing side of room 417, which is inactive because of building codes. The mural uses the six natural sections to illustrate six native endangered species of northern California: the humpback whale, steelhead trout, red-legged frog, kit fox, mission blue butterfly, and northern spotted owl. All work will be done by the SEA-DISC program, which contains several AP art students, including myself. We will use eggshell paint which is not so glossy that it will glare, but enough so that it can be wiped down to clean. The desired location for the mural is directly outside the SEA-DISC classrooms, which will allow to always maintain it so it does not get run down.

**This alteration is needed/desired in order to;**

Make the campus a prettier place, while at the same time sparking an interest in environmental science and ecology. Also, the paint on the wall is peeling, and considering students sit at the picnic benches directly next to it every day, I believe this is a much needed improvement.

**Budget Line:** All funding will be provided by SEA-DISC.

I have attached;     Drawing     Plan     Architectural Draft     for review.

Hi Max,

Here is the latest update I sent you before the break. I was wrong at the start—so glad you checked with me first.

Happy New Year!!
